

Targeted consultation on the review of the revised payment services Directive (PSD2)

Fields marked with * are mandatory.

Introduction

Purpose and structure of the consultation

The present targeted consultation is launched in order to gather evidence to assist in the review of the [Revised Payment Services Directive \(PSD2\)](#). In line with the [better regulation principles](#), the evaluation will assess the effectiveness, efficiency, coherence, relevance and EU-added value of the Directive.

In parallel to this targeted consultation, a [general public consultation](#) has been launched. It includes questions for a broader audience that does not necessarily possess specific knowledge of payment services. While the general public consultation is available in all 27 Member States languages, this targeted consultation is only available in English.

This targeted consultation includes questions that require more in-depth knowledge and/or (working) experience in the field of payment services, and questions concerning the more technical topics of PSD2.

Target group

For this targeted consultation, views are welcome in particular from persons and entities representing

- payment service providers (e.g. payment institutions, electronic money institutions, credit institutions)
- payment service users (e.g. consumers, businesses including small and medium-sized entities, public administrations, citizens with special needs and/or disabilities, citizens who potentially use payment services);
- national authorities (e.g. national governments and national competent authorities)
- EU authorities and international organisations (e.g. European Banking Authority, European Central Bank, European Data Protection Supervisor)
- other players in the payments market (e.g. operators of payment systems, card schemes, outsourcing companies, technical services providers including processors)
- other stakeholders (e.g. academia and think tanks, economic and legal experts, industry groups)

The results of both public- and targeted consultation will inform the PSD2 evaluation. If appropriate, the results will serve as input for an impact assessment accompanying a possible legislative proposal for revising PSD2. The aim is to make sure that PSD2 continues to meet its objectives in terms of a more integrated, competitive and efficient European payments market, a level-playing-field for all payment service providers, safer and more secure payments and consumer protection.

In addition to answering to the questions raised in this online survey, you can add any useful documents and /or data (this can be done at the end of this questionnaire).

Please give concrete examples in your answers when possible. Where appropriate, please illustrate them with concrete examples and substantiate them numerically with supporting data and empirical evidence and make specific operational suggestions to the questions raised. This will support the review process.

Background

This targeted consultation is part of the overall consultation strategy for the review of PSD2. The [revised Payment Services Directive \(Directive 2015/2366/EC, hereinafter “PSD2”\)](#) applies across the EU since 13 January 2018, save for some selected provisions on strong customer authentication (SCA) and access to payment accounts, which apply since September 2019. PSD2 forms the basis for the licensing and supervision of payment institutions and defines the information requirements and the rights and obligations between payment services providers (including payment institutions, electronic money institutions, credit institutions) and payment service users (including consumers and retailers).

The review clause of PSD2 (Art. 108) requires the Commission to report on the application and impact of the Directive. The [Commission’s Retail Payments Strategy of 24 September 2020](#) announced the launch of a comprehensive review of the application and impact of PSD2 at the end of 2021.

The PSD2 aims for an integrated, competitive and innovative EU payments market, with a high-level of consumer protection, and for ensuring the security of payments and their ease of use. In particular, PSD2 includes rules to

- make it easier and safer to use online payment services
- better protect payment services users against fraud, abuse, and payment problems
- promote innovative payment services
- strengthen the rights of payment services users

Since the implementation of the PSD2 the payments market has continued to evolve. New market players as well as new payment solutions, services and technologies have emerged and payment needs of payment service users (PSUs) have changed as a consequence of the continuing digitalisation of our society. These changes may have created new challenges and new risks, which must be taken into account.

The review will take stock of the Directive’s impact on the payments market and its developments as described above. The review will examine whether newcomers and traditional players are treated equally, based on the principle of ‘same business, same risks, same rules’.

The review aims to assess the effectiveness, efficiency, costs and benefits, coherence and the EU added value of the Directive. It will determine if the PSD2 objectives have been achieved or if changes are needed (and if so, the type and scope of changes).

The review will have two dimensions It will be backward-looking (evaluating the application and impact of the Directive, including enforcement by national authorities), and forward looking (assessing the need for possible legislative amendments ensuring that the EU legal framework for retail payments remains fit for purpose and future-proof).

Please note: In order to ensure a fair and transparent consultation process **only responses received through our online questionnaire will be taken into account** and included in the report summarising the responses. Should you have a problem completing this questionnaire or if you require particular assistance, please contact fisma-psd2-review@ec.europa.eu.

The Commission will publish all contributions to this targeted consultation. You can choose whether you would prefer to have your details published or to remain anonymous when your contribution is published. **For the purpose of transparency, the type of respondent (for example, 'business association, 'consumer association', 'EU citizen') is always published. Your e-mail address will never be published.** Opt in to select the privacy option that best suits you. Privacy options default based on the type of respondent selected

* **Contribution publication privacy settings**

The Commission will publish the responses to this public consultation. You can choose whether you would like your details to be made public or to remain anonymous.

Anonymous

Only the organisation type is published: The type of respondent that you responded to this consultation as, your field of activity and your contribution will be published as received. The name of the organisation on whose behalf

you reply as well as its transparency number, its size, its country of origin and your name will not be published. Please do not include any personal data in the contribution itself if you want to remain anonymous.

Public

Organisation details and respondent details are published: The type of respondent that you responded to this consultation as, the name of the organisation on whose behalf you reply as well as its transparency number, its size, its country of origin and your contribution will be published. Your name will also be published.

I agree with the [personal data protection provisions](#)

Part 1: General questions

This part covers general questions concerning PSD2's main objectives and specific objectives grouped by theme.

The second part covers questions on whether the specific measures and procedures of PSD2 remain adequate. They are grouped in subsections, following in principle the structure of the Directive. Please note that part two includes questions concerning possible changes or amendments.

The questions are asked in a statement-like manner. You will have the option to rate the statements on a scale from 1 to 5 (1 being "strongly agree" and 5 being "strongly disagree"). Every topic includes the option to provide an explanation of your views, and/or any argumentation.

Main objectives

The objectives of PSD2 are to create a more integrated and efficient European payments market, and to open up this market to more competition. PSD2 aims to facilitate innovation in the payments market, for example by facilitating new ways to pay (e.g. wallets, mobile phone etc.), while ensuring a high level of security and consumer protection, in a technology and business model-neutral way that allows for the development of new types of payment services.

Question 1. Has the PSD2 been effective in reaching its main objectives?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
Improve the level playing field between the different categories of payment service providers	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Create an environment which stimulates innovation in payment services	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Make payments safer and more secure	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensure a high level of protection for PSUs across all EU Member States	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Strengthen consumers' rights	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Making it easier to make cross-border payments within the EU	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Enable PSUs to have a wider choice between different types of payment services providers	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Improve the transparency of conditions when PSUs make use of payment services	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Contribute to lowering the cost of remittances through a more diverse and transparent market

Please explain your reasoning of your answers to question 1 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Overall, PSD2 has supported innovation effectively, as well as improving security and consumer protection.

EDPIA particularly believes that the licensing regime – whereby different providers are subject to different requirements depending on their risks – has been crucial to supporting a flourishing payments market in Europe.

Giving customers better control of their data has likewise helped innovative firms to establish themselves.

However, the implementation of PSD2 – and its enforcement by different authorities – is overly fragmented today. For example, the approach to PSD2’s numerous exemptions has created significant variations across Europe.

The review of PSD2 presents a crucial opportunity for the EU to reduce this fragmentation, and to help firms to scale in Europe by doing so. This could for example entail:

- Moving parts of PSD2 into a directly applicable Regulation.
- Mechanisms to encourage convergence between ASPSPs interfaces.
- Stronger governance for “open banking” to provide a single final interpretation on any uncertainties that arise.

We believe the review should stay abreast with the market by ensuring that the most advanced technologies can be used for security purposes. The rules should also provide an appropriate level of standardization across the ecosystem (for example to ensure that ASPSPs consistently provide a minimum dataset such that PIS services work smoothly).

Question 1.1 Do you consider that PSD2 favours specific technological solutions over others?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 1.1. Please be as specific as possible (e.g. include direct references and examples) and elaborate:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

EDPIA considers that PSD2 is reasonably technology neutral.

Payment user needs & Innovation

Supporting innovation and payment user needs are two of PSD2's main objectives. For example, PSD2 covers new business models based on access to payment accounts, such as payment initiation services (PIS) and account information services (AIS) ('open banking'). The market evolution led to a wide array of new services and payments solutions such as account-to-account mobile-initiated payments, the development of different types of wallets (including to store payment instruments), the use of wearables such as smart watches, etc. In addition, new means of payment, such as stable coins, have emerged.

Question 2. In your view, has the current PSD2 framework achieved its objectives in terms of meeting payment user needs ?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
Making electronic payments is easier than 5 years ago	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Making international payments between the EU and other jurisdictions is easier than before 5 years ago	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There are more options available to make payment transactions than before 5 years ago	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to market players developing more convenient payment solutions	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 adequately addresses current payment needs	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answers to question 2 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

By facilitating innovation in the payments market, PSD2 has helped to meet user needs at a time where these have continued to evolve rapidly. As mentioned elsewhere, distinct licenses that (broadly) reflect the risks that different firms undertake have been important in this regard.

However, the complexity of managing these services has continued to grow with more and more options on the market. This underlines the need to reduce fragmentation as far as possible, for example around authentication, so that firms can focus on providing the best service possible.

Ultimately, the payment ecosystem is still reliant on banks in several areas. For example, authentication flows still depend considerably upon what banks offer.

PSD2 has helped open up banking services – allowing users to rely on third parties instead – but the user journey is still impacted significantly by the underlying ASPSP.

It is important that liabilities accurately reflect the role of different actors in the chain. For example, it could be possible to give third-parties more control over authentication but this might require shifting the related liabilities to be practical.

Question 3. In your view, has the current PSD2 framework achieved its objectives in terms of innovation?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
PSD2 supports the development of innovative payment services	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 supports the development of innovative payment solutions	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to innovation within payments	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answers to question 3 and provide arguments for your views, in particular as regards the payment services offered by PISPs, AISPs and Card Based Payment Instrument Issuers (CBPII):

3000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

PSD2 has clearly supported competition and innovation in European payments. Opening banking services – via AIS and PIS – has made it easier for firms to enter the market and build new services. In turn, this has improved consumer choice.

At the same time, the functionality of these open banking services is limited today in comparison to their potential.

We can envisage various additional features such as bulk payments, variable recurring payments, conditional payments, and guarantee mechanisms. This would typically require amendments to the regime itself.

This again highlights the importance of a strong governance model to make open banking a success. The demands of the market can evolve quickly and can be difficult to foresee during legislative negotiations, and therefore it is useful to create a flexible regulatory tool to meet the needs of the market without requiring a full legislative revision.

Similarly, extending the data access regime to new kinds of data would support new use-cases.

Market integration & competition

PSD2 aims to contributing to a more integrated and efficient European payments market. The Directive also aims to facilitate competition and to improve the level-playing field for payment service providers (see also question 1) – including new players and FinTechs.

Question 4. In your view, has PSD2 achieved its objectives in terms of market integration and enhancing competition ?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
PSD2 has improved the functioning of the internal payments market	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to the development of cross-border payments within the EU	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
There is a wider choice of payment service providers than 5 years ago	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The EU payment market is more competitive than it was 5 years ago	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to lower fees for digital payments	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to lowering the costs of remittances	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answers to question 4 and provide arguments for your views:

3000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The implementation of PSD2 is fragmented across Europe, which hinders firms' ability and incentive to scale innovative services.

This fragmentation would need to be reduced significantly before open banking services can present a competitive alternative to the card schemes, for example.

Nonetheless, PSD2 has contributed to market competition with many players entering the market using the variety of licenses that it provides.

Question 4.1 Do you think the current PSD2 provisions on access to accounts lead to an un-level playing field between payment service providers offering payment accounts, who have to be accessible to TPPs, and other players who do not offer payment accounts, and therefore are not obliged to share their users' data?

- Yes
- No
- Don't know / no opinion / not applicable

Consumer protection

Another important objective of PSD2 is to protect consumers. Key consumer protection features in PSD2 include: transparency of conditions for access and use of payment services, clear definition of rights and obligations for PSUs and PSPs, requirements enhancing fraud prevention, dispute resolution procedures, etc.

Question 5. In your view, has PSD2 achieved its objectives in terms of consumer protection?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
PSD2 has contributed to improving consumer protection	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has led to a reduction in fraud in digital payments	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has effectively removed surcharges for the use of a payment instrument	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
With PSD2, payment service providers now provide clear information about payment services and their terms and conditions, for example about fees	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has improved complaint procedures	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answers to question 5 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

PSD2 has helped to improve consumer protection in numerous ways. Consumers benefit from improved security, transparency, and better data protection for open banking services.

Dispute and complain procedures could still be improved (for example we can compare this with the card schemes), and it is important that consumers know their rights in practice.

Secure payments

Question 6. In your view, has PSD2 achieved its objectives in terms of secure payments?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
Making electronic payments is safer than before PSD2	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to creating trust in electronic payments, by implementing measures to support the correct and safe processing of payments	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 has contributed to ensuring that consumers' financial data are protected	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answers to question 6 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Strong customer authentication under PSD2 has improved the security of payments overall.

Regarding data, PSD2 provides a more secure regime compared with screen scraping. However, the interaction with the GDPR could be clearer.

The increasing use of biometrics in payments will have to be assessed under the future regime.

Costs and benefits of PSD2

The implementation of PSD2 required investments from the financial industry. For example, payment service providers had to adapt their systems in order to properly implement strong customer authentication, account servicing payment service providers had to enable access to payments accounts by other payment service providers, and certain service providers that were already in business prior to the PSD2 (Third Party Providers, "TPP") had to adjust to the new, regulated, environment.

Question 7. Would you say that the benefits stemming from the application of the PSD2 outweigh the costs of its implementation ?

Note that “costs” and “benefits” need not necessarily be quantitative.

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
As a payment service provider, the implementation of PSD2 resulted in higher costs for me	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The implementation of PSD2 has led to higher costs for merchants	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The implementation of PSD2 has led to higher costs for corporates	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The implementation of PSD2 has led to higher costs for individual consumers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I or my company have benefitted from PSD2	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The investments required to comply with PSD2 were proportional to its benefits	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The benefits related to SCA exceed the costs of its implementation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

PSD2 has simplified and reduced the regulatory burden in comparison to the previous framework (PSD1)

Question 7.1 If available, could you provide an estimate of the investments your institution has made to implement the PSD2?

In your response, please explain the most significant cost components:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 7.2 Did your business experience any problems due to the implementation of PSD2?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your reasoning of your answer to question 7.2 and provide arguments for your views:

2000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 7.3 Overall, from your own stakeholder perspective, would you say the aggregated benefits stemming from the implementation of PSD2 outweigh its implementation costs?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 7.3:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Enforcement

PSD2 also aimed to enable competent authorities to better monitor and supervise the activities of the (new) payment service providers that entered the payments market over the years, and to enhance cooperation and information exchange between authorities in the context of authorisation and supervision of payment institutions. With this aim PSD2, amongst others, introduced a more detailed passporting procedure and mandated the drafting of technical standards specifying the framework for cooperation and the exchange of information between the competent authorities of home and host Member States. PSD2 also provides for a general obligation on Member States to lay down rules on the empowerment of NCAs to ensure and monitor effective compliance with the directive, on penalties for breach of rules transposing the directive, and on the disclosure of the penalties actually imposed by NCAs. Next to that, PSD2 requires that all payment service providers put in place sufficient and effective complaint procedures for PSUs and other payment service providers. NCAs should also implement a complaint procedure, where stakeholders can submit a complaint where they consider that their rights established by the Directive have not been respected.

Question 8. Would you consider that the application and enforcement of PSD2 rules by national competent authorities (NCAs) are satisfactory?

Please indicate to which extent you (dis)agree what the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
NCAs are sufficiently empowered by national law to ensure that PSD2 rules are correctly applied (Art. 100)	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
NCAs are sufficiently empowered by national law to impose sanctions where needed (Art. 100, 103)	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The types and severity of sanctions available to NCAs are effective, proportionate and deterrent	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 provisions are sufficient to ensure investigation and sanctioning of a cross-border breach of PSD2	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The EBA should conduct mandatory peer review analysis of the supervisory activities of all competent authorities in accordance with Article 30 of Regulation (EU) No 1095/2010	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your answer to question 8 and provide arguments for your views, in particular whether you consider that the enforcement shortcomings identified are due to the PSD2 legal framework or to its application:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

EDPIA generally believes these powers are sufficient. Indeed, challenges with PSD2 relate more to some supervisors exercising their powers in much more restrictive fashion than others and to potential regulatory arbitrage.

One example here is the treatment of the limited network exclusion which can allow firms to offer their services without regulation. Another example is the deployment of strong customer authentication, which still does not appear to have been completely enforced.

Question 9. In your view, has the PSD led to improved complaint procedures?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The provisions on the complaint procedures to be implemented by NCAs are effective (Art. 99)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on the complaint procedures to be implemented by PSPs are effective (Art. 101)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain the reasoning of your answer to question 9 and provide arguments for your views, including possible suggestions for changes to the provision (if any).

If you have ever filed a complaint at either an NCA or a PSP, please include this experience in your response:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 9.1 To which extent do you agree that the out-of-court complaint and redress procedures set up on the basis of Article 102 PSD2 are effective?

- 1 - Strongly agree
- 2 - Somewhat agree
- 3 - Neutral
- 4 - Somewhat disagree
- 5 - Strongly disagree
- Don't know / no opinion / not applicable

Please explain your answer to question 9.1:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 10. Taking your responses to the above questions into consideration, should PSD2 be revised?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
PSD2 needs to be amended to cater for market developments	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 must be complemented by self-regulatory measures and industry-led initiatives (e.g. standardisation)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 should be a Regulation, not a Directive ^[1] , to avoid transposition differences	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Specific parts of PSD2 should be a regulation, to avoid transposition differences	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 could be simplified to reduce compliance costs, without undermining its effectiveness	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
All PSD2 provisions must be subject to the full harmonisation rule (Art. 107)	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

¹ A "regulation" is a binding legislative act. It must be applied in its entirety across the EU. A "directive" is a legislative act that sets out a goal that all EU countries must achieve. However, it is up to the individual countries to devise their own laws on how to reach these goals. [More information on the types of legislation.](#)

Please explain the reasoning of your answer to question 10, in particular if you are of the opinion that PSD2 should be (partly or fully) transformed into a Regulation:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Passporting is a crucial benefit of the European market. The harmonisation offered by a regulation would help European firms to scale while also providing users with consistent protections and user journeys in each Member State.

At the same time, the legal text must not be too prescriptive and should be technology-neutral.

For example, overly prescriptive security rules can expose firms to increased risks by hindering the use of innovative technology and creating a more homogenous security environment between different firms. We can even consider supporting a wider range of authentication solutions so long as the same high level of security is maintained.

We believe there is significant potential to harmonise PSD2. As elsewhere, this should be combined with effective mechanisms to react to new market demands whether through secondary legislation, guidance, or stronger governance mechanisms in specific areas.

Question 10.1 Is there any PSD2 provision that is, in your view, no longer relevant?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 10.1, being as specific as possible (e.g. include articles, paragraphs), and elaborate:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Part 2: Measures and procedures

PSD2 includes various measures and procedures that regulate the retail payments activities. These relate to the authorisation (licensing) of payment institutions and supervision of payment service providers, including a list of payment services that require a payment institution authorisation, what is needed to obtain such authorisation and what is required of entities that are authorised to provide payment services included in the list.

This part of the questionnaire aims to determine whether the PSD2's requirements have contributed to a sound and effective regulation of the provision of payment services, and whether they are still fit for purpose. Since PSD2 was implemented in January 2018, new players have entered the market, and new payment solutions, services and technologies have been developed. The Commission has also observed that new means of payment fraud have emerged. The questions therefore focus on the adequacy of PSD2's current provisions (backward-looking), and whether specific requirements of the current PSD2 need to be changed and further improved, taking into account market developments and the evolution of users' needs (forward-looking).

Title I: Subject matter, scope and definitions

PSD2's first Title covers, amongst others, the scope of PSD2 (including exclusions) and the definitions of the most important and frequently used terms. The payments market has continued to evolve since the implementation of PSD2. It is thus important to ascertain that the subject matter, scope and definitions of the legislation are still fit for purpose.

Question 11. Do you consider that the scope of the PSD2 is still adequate?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The PSD2 scope (Art. 2) is adequate and does not need to be modified	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Article 3 on exclusions is adequate and does not need to be modified	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The exclusion from PSD2 of payments by a provider of electronic communications network or services as described in Art. 3(l) of PSD2 is still appropriate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The limits to the transaction values set for payment transactions by a provider of electronic communications network or services as described in Art. 3(l) of PSD2 are still appropriate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your answer to question 11:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The treatment of account information service providers should be clarified particularly if these services are potentially extended to other financial sectors, and also to make sure the interaction with the GDPR is clear.

Question 11.1 In your view, should changes be made to PSD2's scope (as in Art. 2)?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 11.1 and provide arguments for your views expressed and, where possible, explain the added value that the changes would have:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 11.2 Article 3 lists the exclusions to PSD2. Do you believe there are exclusions in PSD2 that should be changed or deleted?

- Yes
- No
- Don't know / no opinion / not applicable

Question 11.3 Should there be more exclusions?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 11.2 and 11.3:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The limited network exclusion is applied in different ways across Europe which can lead to arbitrage between regulated and unregulated firms. In turn, this creates risks to consumers as well as to fair competition.

Question 12. Do you consider that the definitions in PSD2 are still adequate and do not need to be modified?

- 1 - Strongly agree
- 2 - Somewhat agree
- 3 - Neutral
- 4 - Somewhat disagree
- 5 - Strongly disagree
- Don't know / no opinion / not applicable

Question 12.1 Do you consider the definitions under Article 4 of PSD2 are still adequate and do not need to be modified?

- Yes
- No
- Don't know / no opinion / not applicable

Please specify what PSD2 definition(s) should be modified (Art. 4) and provide a proposal:

	Term defined	Proposal
Term No. 1	Definition of agent	Agents should operate in their home country (i.e preventing foreign branch being used to provide services in multiple countries).
Term No. 2		
Term No. 3		
Term No. 4		
Term No. 5		
Term No. 6		
Term No. 7		
Term No. 8		
Term No. 9		
Term No. 10		

Question 12.2 Are there definitions missing from Art. 4?

- Yes
- No
- Don't know / no opinion / not applicable

Question 13. In view of market developments, do you consider that the list of services included in Annex I of PSD2 is still adequate?

- 1 - Strongly agree
- 2 - Somewhat agree
- 3 - Neutral
- 4 - Somewhat disagree
- 5 - Strongly disagree
- Don't know / no opinion / not applicable

Question 13.1 Please indicate whether services in the following list need to be maintained or modified.

See question 13.3 in case you believe services should be added to the list that are currently not included:

	No change needed	Description of service should be changed	Don't know - No opinion - Not applicable
(1) Services enabling cash to be placed on a payment account as well as all the operations required for operating a payment account	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
(2) Services enabling cash withdrawals from a payment account as well as all the operations required for operating a payment account	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
(3) Execution of payment transactions, including transfers of funds on a payment account with the user's payment service provider or with another payment service provider: a. execution of direct debits, including one-off direct debits; b. execution of	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

payment transactions through a payment card or a similar device; c. execution of credit transfers, including standing order			
(4) Execution of payment transactions where the funds are covered by a credit line for a payment service user: (a) execution of direct debits, including one-off direct debits; (b) execution of payment transactions through a payment card or a similar device; (c) execution of credit transfers, including standing orders	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
(5) Issuing of payment instruments and/or acquiring of payment transactions	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
(6) Money remittance	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
(7) Payment initiation services	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
(8) Account information services	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 13.2 Cash-in-shops is being offered in various Members States across the EU and falls under service (2).

The current authorisation regime for this particular service, however, might not be proportionate to the risk involved.

Should a specific authorisation regime be considered for cash-in-shops, as a distinct service enabling cash to be withdrawn in shops, from a payment account ?

(Please note that “cash-in-shops” is not the same as “cash-back”. Cash-in-shops allows withdrawing money without making a purchase.)

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 13.2:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

In our view the regime for cash-in-shops is sufficiently regulated and proportionate to the risk involved today.

Question 13.3 Should any of the services listed below be added to the list of payment services in Annex I?

	Yes	No	Don't know - No opinion - Not applicable
Issuance of e-money	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Payment transactions using crypto assets (incl. stable coins)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Digital wallet services (e.g. mobile apps for payments)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Payment processing services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating payment systems	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating payment schemes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Buy-Now-Pay-Later services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other/specific services in the payment chain provided by a technical service provider	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answer to question 13.3 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 13.4 In case you are in favour of including specific services into the list of payment services, which adjustments to PSD2 would you propose to make, for example to the supervisory provisions (Title II) and the provisions regarding the relationship between the payment service provider and the customer (Title III and IV)?

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 14. Should any other changes be made to the provisions and/or topics dealt with under Title I of PSD2?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 14, being specific and if possible, offering textual proposals:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Title II: Payment service providers

PSD2 aimed to modernise the payments market and create room for the development of new payment services and providers. Title II covers the authorisation (licensing) of payment service providers (e.g. requirements regarding applying for authorisations, calculation of own funds etc.), the exemptions to authorisations and the supervisory framework.

Question 15. Do you consider that the provisions on authorisation (licensing) of providers of payments services in PSD 2 are still adequate ?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
PSD2 is sufficiently clear in determining whether a service must be authorised or not	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The requirements to apply for an authorisation (Art. 5) are still adequate	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The exemption of small payment service providers (Art. 32) is adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The dedicated regime for AIS-only providers is adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The authorisation regime for PIS providers is adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The authorisation regime for payment institutions that are part of a group of entities is adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The minimum initial capital a payment institution needs to hold at the time of authorisation is adequate, taking into account the type of payment service provided (Art. 7)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Provisions on the own funds for payment institutions are required to hold at all times are adequate, taking into account the type of payment service provided taking into account the type of payment service provided (Art. 8 and 9)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision on own funds for payment institutions with a hybrid character (Art. 8) are adequate	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The methods to calculate the own funds are adequate (Art. 9)	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The possibility for PSPs to choose a method to calculate their own funds is adequate	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The safeguarding options (Art. 10) are sufficient/adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The granting of an authorisation (Art. 11) is adequately defined	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 does not lead to regulatory arbitrage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 16. In your view, should changes be made to PSD2's authorisation regime ?

In your response, please consider the following two principles

- i. can the application for authorisation be simplified without undermining the integrity of the authorisation process, e.g. by reducing the amount of required information payment service providers have to submit with their application (Art. 5.1)?**

- ii. should the application for authorisation be accompanied by more information from the payment service provider than required in Article 5.1?**

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your reasoning of your answer to question 16 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The principle that the licensing regime brings scaling requirements is an important element of PSD2 that has facilitated innovation in the market.

Licensing can entail a lengthy procedure today and reducing the divergence in approaches between different Member States would be beneficial. As elsewhere this might be achieved by shifting towards a Regulation rather than a Directive and by providing further guidance for national authorities.

Please explain your answer to question 1:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 17. PSD2 offers 4 different calculation methods (Art. 9) to a payment services provider's own funds.

Should any method be changed, or deleted?

	No change needed	Method should be changed	Method should be deleted	Don't know - No opinion - Not applicable
Method A	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Method B	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Method C	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Method D	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your answer to question 17. In case methods should be changed, please provide an alternative calculation method:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 17.1 Should any method be added?

- Yes
- No
- Don't know / no opinion / not applicable

Question 18. If you are responding to this questionnaire in the capacity of an NCA: do you deviate from the authorisation requirements set out in the PSD2 in any way, e.g. due to national legislation?

- Yes
- No
- Don't know / no opinion / not applicable

Question 19. Article 10 of PSD2 describes the requirements around safeguarding. Should these requirements be further adjusted?

As PSD2 includes provisions that are applicable mutatis mutandis to electronic money, which is also regulated by the [Electronic Money Directive \(EMD2\)](#), please consider the safeguarding requirements as they are included in the EMD2 too (Art. 7 of Directive 2009/110/EC) (see also questions 11.2 and 11.3):

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 19:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

We do not see a pressing need to adjust safeguarding requirements. Firms typically hold user funds on a separate account as it is practical (and would likely use alternatives if they were equally practical).

Question 20. Should the activities listed under Article 18 (e.g. closely related services ancillary to the provision of payment services) be revised to reflect any changes in the day-to-day business of payment institutions, due to developments in the payment market?

- Yes
- No
- Don't know / no opinion / not applicable

Other requirements

Question 21. Other requirements: please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The regime for PSPs providing services through third parties (agents, branches, outsourcing), as outlined in Article 19, is still adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The provision on liability (Art. 20) in case a PSP uses third parties to provide services is still adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Please explain your answer to question 21:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 21.1 Should Article 19 be amended?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 21.1:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The geographic range of an agent should be clarified. It currently creates reporting difficulties for example.

Question 21.2 Should “triangular passporting” be regulated?

Triangular passporting occurs where an authorised service provider in a Member State A makes use of the services of a service provider (e.g. an agent) in a Member State B in order to provide payment services in a Member State C.

- Yes
- No
- Don't know / no opinion / not applicable

If you think “triangular passporting” be regulated, please explain how:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

As referred to in question 12, we believe that agents should operate in their home country (preventing a foreign branch being used to provide services in multiple countries).

Question 22. Do you consider that PSD2 is applied consistently, and aligned with other related regulation?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The PSD2 authorisation framework is applied consistently across the EU	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The PSD2 supervisory framework is applied consistently across the EU	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

The PSD2 framework is aligned and consistent with other EU policies and legislation, in particular with:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
Electronic Money Directive 2 (EMD2)	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
General Data Protection Regulation (GDPR)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Revised eIDAS (electronic Identification, Authentication and trust Services) Regulation (Commission proposal)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Single Euro Payments Area (SEPA) Regulation	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Settlement Finality Directive (SFD)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Anti Money Laundering Directive (AMLD)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Market in Crypto Assets (MiCA) (Commission proposal)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Digital Operational Resilience Act (Commission proposal)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other act(s)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your answer to question 22:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

It is not clear how EU digital identity wallets will be used in an authentication context under the recent proposal on EU-ID (nor how complaints and fraud will be managed). The value is more apparent during onboarding, but firms have invested in providing effective authentication solutions already. Generally, we do not think regulators should be too prescriptive about using specific technologies, especially in relation to security: this can hinder the market from taking up the most advanced solutions available.

PSD2 should ensure firms are licensed and supervised effectively by their home regulator without being subject to duplicative or diverging expectations. As mentioned elsewhere, divergence between supervisory interpretations of PSD2 is challenging.

Question 22.1 Should the directive's requirements related to competent authorities and supervision be changed?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain the reasoning of your answer to question 22.1 and provide arguments for your views.

In your response, please consider the following

- i. if, in your view, there is anything in PSD2 that is not consistent with other EU regulation, please be as specific as possible (e.g. include articles, paragraphs, names of regulations)**
- ii. should the Directive's requirements related to home/host competent authorities be clarified or amended? If yes, please specify**

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 23. In your view, should the current payment volume limit for exempted payment institutions (Art. 32) be increased or decreased?

- It should be **increased**
- It should be **decreased**
- It should **not be changed**
- Don't know / no opinion / not applicable

To what amount should the limit be increased?

euros

Please explain your answer to question 23:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Participation in payment systems

Article 35 provides for non-discriminatory access for payment service providers to payment systems. Article 2(a) provides for an exemption regarding payment systems designated under [Directive 98/26/EC \(Settlement Finality Directive, SFD\)](#). Between 12 February and 7 May 2021, the Commission conducted a [targeted consultation asking for views on the SFD](#) to prepare a report to the European Parliament and the Council. Amongst other questions, the targeted consultation on the SFD asked about including payment institutions and e-money institutions amongst the list of possible participants in designated systems.

Question 24. If it were decided to amend the SFD to allow payment institutions and e-money institutions to be direct participants in SFD-designated systems, do you consider that the exclusion of systems designated under in Article 35.2(a) should be removed, thus facilitating participation of authorised payment institutions and e-money institutions in such designated payment systems?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 24:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The exclusion should be removed to allow authorized PIs and EMIs to participate in the relevant systems. Today, non-banks face additional costs and potential delays in comparison to banks. Equality between banks and non-banks is important to ensure a level playing field and to support Europe's ambition to make instant payments the new normal (by incentivizing non-banks to participate equally in such ambitions).

Question 24.1 Do you consider that certain conditions for access by authorised payment institutions and e-money institutions to designated payment systems should be laid down, and if so, should they be laid down in EU legislation or elsewhere (for example, in the rules of the system)?

Please note that the question of whether specific risk assessment criteria should apply under the SFD, if it were to be decided to amend the SFD to allow payment institutions and e-money institutions to be direct participants in SFD-designated systems, was covered in the targeted consultation on the SFD.

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 24.1:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Regulators could define some basic principles, but the specific conditions should be left to the systems in question. This is a competitive area and systems provide valuable services.

Question 24.2 Please specify which conditions could be included in EU legislation:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Basic principles regarding risk and collateral could be defined, but again the details should be left to the market. The approach to groups would also need to be defined.

TIPS should also be subject to the same rules where it performs the same activities.

Access to accounts maintained with a credit institution

Article 36 of PSD2 provides for a right for payment institutions (and mutatis mutandis e-money institutions) to access to credit institutions' payment accounts services on an objective, non-discriminatory and proportionate basis.

Question 25. Do you think that Article 36 PSD2 should be modified, for example, by extending it to the termination of business relationships in addition to the access?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 25:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 25.1 Should the European Banking Authority (EBA) be mandated to developing technical standards or guidance further specifying PSD2 rules and/or ensuring the consistent application of Article 36?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 25.1, specifying what could ensure more consistency (e.g. a common reporting template for credit institutions rejecting an application to open an account):

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 26. Should any other changes be made to the provisions and/or topics dealt with under Title II of PSD2?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 26, being specific and if possible, offering textual proposals:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Title III: Transparency of conditions and information requirements for payment services

One of the objectives of PSD2 was to improve the transparency of conditions for providing payment services (see also part 1: main objectives). For example, payment service providers are required to be transparent about all charges payable by the PSU to the payment service provider, the maximum execution time of the transaction and the type of information provided to payers and payee's after transactions have been executed. There are some exceptions and differences in the provisions on the transparency of conditions and information requirements for payments with/to countries outside of the EU ("one-leg transactions"). The following questions cover both the adequacy of the current provisions as well as any possible amendments to these.

The questions in this consultation are, in principle, about payments occurring in the EU. Please read the questions carefully in case a distinction is made for one-leg transactions.

Question 27. In your view, are the requirements regarding the transparency of conditions and information requirements of PSD2 still adequate?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The transparency and information requirements are still adequate: they still fit current payment needs and methods	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The transparency and information requirements have contributed to making electronic payments more secure	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The transparency and information requirements have contributed to an informed user choice between different payment products, allowing for comparisons	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The information and transparency requirements have improved PSUs' understanding of their rights when using payment services	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The transparency and information requirements have contributed to making cross-border payments within the EU as easy, efficient and secure as 'national' payments within a Member State	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning of your answer to question 27, providing arguments for your views.

In your response, please consider whether there is any additional information that is important for you to know before making a payment, which is not currently part of PSD2, namely Article 45 and 52:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Thresholds such as the transaction and storage limits under article 42 (derogation for low value instruments) should be increased to reflect the economic development and trends in Europe.

References to a “durable medium” should clearly allow for information to be provided digitally and align with other pieces of consumer law (such as the consumer credit directive revision).

The principle introduced in article 38, whereby non-consumer parties can agree not to apply certain terms, could also be extended which might allow for the safe development of innovation.

Question 27.1 Conversely, do you consider any of the currently required information irrelevant, and better be removed?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 27.1:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 27.2 For all one-leg transactions, are you of the opinion that currency conversion costs should be disclosed before and after a payment transaction, similar to the current rules for two-leg payment transactions that involve a currency conversion included in the Cross-border payments Regulation that are currently only applicable to credit transfers in the EU?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 27.2:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 27.3 For one-leg transactions, should any other information be disclosed before the payment is initiated, that is currently not required to be disclosed, such as the execution time?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 27.3:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 28. Should any other changes be made to the provisions and/or topics dealt with under Title III?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 28, being specific and if possible, offering textual proposals:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Title IV: Rights and obligations in relation to the provision and use of payment services

Another important aspect of PSD2 are the **rights and obligations** of all parties involved, for both payment service users and payment service providers. These measures are intended to make payments safer and more secure, and to ensure a high level of protection for all PSUs across Member States and to strengthen consumers' rights. Title IV includes, inter alia, certain rules on applicable charges, maximum execution time, irrevocability, the rights to refunds, rules for liability, and the requirements regarding access to payment accounts (who has access, how and under which circumstances). Furthermore, it contains requirements on operational and security risk and on strong customer authentication. The following questions are about the adequacy of the current provisions and whether adjustments to legislation are necessary in light of the developments that have taken place in terms of payment user needs and fraud.

Not all provisions under Title IV apply in case of payments to/from countries outside of the EU ("one-leg transactions"). In principle, the questions in this consultation are about payments occurring in the EU. Please read the questions carefully in case a distinction is made for one-leg transactions.

Question 29. In your view, are the requirements for the rights and obligations in PSD2 still adequate?

Please indicate to which extent you (dis)agree with the following statements:

Question 29.1 The rights and obligations as described in PSD2 are clear

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
for PSUs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
for PSPs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 29.2 The rights and obligations included in PSD2 are adequate

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
for PSUs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
for PSPs	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain the reasoning of your answer to question 29.1 and 29.2 and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Common provisions

Question 30. In your view, should the current rules on the scope with regard to rights and obligations (Art. 61) be changed or clarified?

- Yes
- No
- Don't know / no opinion / not applicable

Question 31. In your view, are the provisions on applicable charges as laid down in Article 62 adequate?

- 1 - Strongly agree
- 2 - Somewhat agree
- 3 - Neutral
- 4 - Somewhat disagree
- 5 - Strongly disagree
- Don't know / no opinion / not applicable

Question 31.1 In your view, should the right of the payee to request charges be further limited or restricted (e.g. regarding “3-party-card-schemes”) in view of the need to encourage competition and promote the use of efficient payment instruments?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain the reasoning of your answer to question 31.1 and provide arguments for your views on the provisions on applicable charges. In case you believe the provisions should be changed, please elaborate:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 32. In your view, are rules on the derogation for low value payment instruments and electronic money in PSD2 (Art. 63) still adequate?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 32:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Generally, the rules seem adequate but the thresholds could be revisited. Any specific line is always likely to be somewhat arbitrary considering the differences across Europe so greater discretion to the firms involved to decide their risk tolerance could be considered.

Open banking and beyond

PSD2 laid down the rules of 'open banking', where a payment service user could securely share certain data of their payments account in order to receive some regulated services from third part providers. The review intends to investigate the current state of 'open banking'. This also relates to ['open finance' for which there is another targeted consultation](#).

Question 33. In your view, are the requirements regarding open banking in PSD2 still adequate?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The rules on access to and use of payments account data in PSD2 are adequate (Art. 66, 67 and 68)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 ensures a safe sharing of payments data	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on consent management are adequate	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
When providing consent to a third party to access payment data, is it clear which party is accountable/liable	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 rules on access to payments accounts do not create unnecessary barriers to access these accounts and provide services	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2's open banking regime is successful	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain your reasoning and provide arguments for your views, in particular regarding your opinion on the success of open banking.

In case you believe provisions on access to accounts should be changed, please explain why, refer to specific articles to be changed and include suggestions.

If your remark is about a particular type of service which depends on access to payment accounts (CAF (confirmation on the availability of funds), PIS or AIS), indicate to which service(s) your argument(s) relate:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

In practice, we believe a strong governance structure and commercial incentives are necessary to make open banking a success. Essentially a scheme is required that balances the interests of different participants, and the industry is best placed to develop that within guiding regulatory principles.

This governance should allow for standard specifications to be gradually deployed.

As mentioned elsewhere, we note that various use-cases require additional regulatory support (see question 3).

Question 34. Next to the rules on access, PSD2 includes ways in which the access to accounts can be limited, for instance by an Account Servicing Payment Service Provider (ASPSP).

Please consider the following suggestions and indicate whether you think the suggestion should be implemented or not:

	Yes	No	Don't know - No opinion - Not applicable
The provision on ASPSPs denying AIS- and/or PIS providers' access to payment accounts should be further facilitated by further clarifying the concept of "obstacle" (see RTS SCA & CSC)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision on ASPSPs denying AIS- and/or PIS providers' access to payment accounts should be further facilitated by further	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

clarifying the concept of “objectively justified and duly evidenced reasons” (Art. 68(5))			
The manner in which access to payment accounts is organised should be further/more extensively regulated	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
EU legislation on payments should include a common API standard	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Please explain your answer to question 34:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

As above, gradually moving towards more standardization – with a clear role for the industry in developing it – would significantly reduce obstacles to accessing accounts.

Clarifying key terms in the legislation can be helpful, but the fragmentation between different interfaces is a major barrier which goes far deeper than that.

Question 35. Access to payments data via interfaces is currently provided for free to third party providers. Should access to payment data continue to be provided for free?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 35:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Balanced commercial incentives would help to incentivize the market to develop high-quality interfaces and products. High-quality infrastructure would support the development of value-added services, but it is questionable whether firms will invest in infrastructure beyond what is needed for compliance if they do not have any incentive.

Question 36. What is your overall assessment about open banking in the EU? Would you say that it should be further extended?

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Opening banking has improved competition and consumer choice.

At the same time, open banking has not yet achieved its full potential. We believe that effective governance mechanisms and commercial incentives would help it to do so.

Liability and refunds

Question 37. In your view, are the provisions on liability and refunds in PSD2 still adequate?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The provisions on liability in PSD2 are still adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on refunds are still adequate (Art. 71, 73, 74, 76 and 77)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The unconditional refunds requirement has improved consumer protection	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The allocation of liability when executing a payment transaction is adequate	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 37.1 In your view, should changes be made to the PSD2 provisions on liability and refunds?

Please consider the following suggestions:

	Yes	No	Don't know - No opinion - Not applicable
The provisions on refunds should be amended to cover all SEPA credit transfers	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on refunds should be amended to cover only SEPA instant credit transfers	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Please explain your answer to question 37.1 and 37.2

In case you are of the opinion that any other changes should be made to the PSD2 provisions on liability and refunds, please include those in your answer:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Communication between ASPSPs and PISPs could be improved, for example by ensuring the IBAN of the payer (or similar identifier) is provided after a payment is confirmed. This is important to allow firms to manage refunds without having to directly receive the information from the user, which can create delays and increase fraud risks in the overall system.

The current rules on refunds remain appropriate for protecting consumers and merchants in relevant scenarios. For balance, it might be required that refunds for instant payments should be executed equally rapidly.

Question 38. Article 75 of PSD2 allows funds to be blocked in case of a payment initiation.

Is this provision adequate, or should a maximum limit be introduced to the amount of funds that can be blocked?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 38:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Execution of payment transactions

Chapter 3 of Title IV covers the execution of payment transactions, including provisions on when payment orders should be received, the irrevocability of a payment order and the execution time.

Question 39. To which extent to you (dis)agree with the following statements?

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The provisions on payment orders and amounts transferred are still adequate	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on execution time and value date are still adequate	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on liability (Art. 88-93) are still adequate	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 39.1 Should the current maximum execution time allowed for payments (Art. 83) within the EU (“two leg”) be adjusted?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 39.1:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 39.2 For payments to and from countries outside of the EU (“one-leg”), should action be taken at EU level with a view to limiting the maximum amount of time (execution time) for the payment (or transfer) to reach its recipient?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 39.2:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Execution time should be considered across the whole payment chain and not by focusing upon specific parts.

Question 39.3 If, in your view, the provisions under question 39 are not adequate, please explain and provide arguments for your views:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 39.4 If you have any suggestions for changes (other than those under question 39.1 and 39.2), please include these in your answer:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 40. In your view, is the unique identifier (Art. 88) sufficient to determine the payment account of the payee or should, for example, the name of the payee be required too before a payment is executed?

- The unique identifier is sufficient
- The unique identifier must be combined with the name of the payee
- The unique identifier must be combined with something else (namely)
- Other
- Don't know / no opinion / not applicable

Operational and security risk

Question 41. In your view, are the requirements regarding operational- and security risk in PSD2 still adequate?

Please indicate to which extent you (dis)agree with the following statements:

(Note: you will be able to explain your responses and elaborate under question 43.)

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The provisions requiring PSPs to implement procedures to manage security risks, including fraud, are still adequate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision requiring PSPs to establish an operational and security risk framework is clear (Art. 95)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The security measures introduced by PSD2 have made payment service providers more secure/resilient	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The security measures introduced by PSD2 adequately protect the confidentiality and integrity of payment service users' personalised security credentials	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision on major incident reporting (Art. 96) is adequate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 42. In your view, are the requirements regarding fraud prevention in PSD2, in particular those on procedures and reporting, still adequate?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The provisions requiring a PSP to provide documentation on how they deal with fraud (data collection, controls and mitigation measures) (Art. 5) are still adequate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision requiring PSPs to provide an annual report on fraud (Art. 95(5)) is still adequate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision limiting the use of payment instruments and the access to payment accounts by PSPs (Art. 68) is still adequate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision regarding the notification of PSUs in case of suspected fraud helped to prevent fraud	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision regarding the right of PSPs to block a payment instrument in case of suspected fraud helped to prevent fraud	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision regarding the right of PSPs to block a payment instrument in case of suspected fraud (Art. 68(2)) is still adequate	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The provision allowing ASPSPs to deny TPPs access to a PSU's payment account on the suspicion of unauthorised access or fraud (Art. 68(5)) is sufficiently clear

Question 43. With regard to the provisions on operational-and security risk, including those on fraud prevention: should any changes be made to these provisions?

- Yes
- No
- Don't know / no opinion / not applicable

Question 43.1 Are the current provisions future-proof?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your reasoning of question 43.1 and provide arguments for your views (e.g. refer to your responses to questions 41 and 42).

If, in your view, any changes should made to the current provisions describing the necessary operational and security risks procedures payment service providers need to have in place (Art. 95, 96), include these in your response:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

We believe these measures are sufficiently broad.

Given that the recent digital operational resilience act touches on these issues, and further detail is yet to be defined in its secondary legislation, we do not feel that it is relevant or well-timed to adjust these rules. We also note that this is a relatively technical matter so might be better addressed in secondary legislation, if it is addressed.

Question 44. If you are a payment service provider: how have your payment fraud rates (as % of the total value of payment transactions) developed between 2017 and 2021?

Please use a comma for decimals, e.g. 3,5%.

	Card present	Card not present
Fraud % by 31/12/2017		
Fraud % by 31/12/2018		
Fraud % by 31/12/2019		
Fraud % by 31/12/2020		
Fraud % by 31/12/2021		

Question 44.1 Currently, what type of fraud is your main concern/causing most problems (if available, illustrate with figures)? Is there a particular type of payment transaction that is more sensitive to fraud? Please elaborate:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 45. In your view, are the requirements regarding fraud prevention in PSD2, in particular those on strong customer authentication (SCA), still sufficient?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The requirements for SCA (Art. 97) are still adequate	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
SCA has made electronic payments safer	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provision on SCA do not adversely impact the TPPs' business models	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
If you are a PSP, the provisions on SCA did not lead to obstacles in providing payment services towards PSUs (leaving aside any costs incurred for the technical implementation of SCA. For costs and benefits related to the (implementation of) PSD2, please see question 7)	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The provisions on SCA do not leave room for circumvention	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The implementation of SCA has not led to the exclusion of categories of customers/citizens	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The implementation of SCA did not negatively impact your business	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please explain the reasoning of your answer to question 45 and provide arguments for your views, including possible suggestions for changes to the provision (if any).

If your business experienced any problems due to the implementation of SCA, please include these in your answer:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Overall, we believe that strong customer authentication has helped to raise the level of security for users.

At the same time, it does add friction to the payment process. This can be particularly challenging in the context of customers who are less digital-savvy, where firms may rely on less secure factors.

As mentioned elsewhere, prescriptive security rules can expose firms to increased risks by hindering the use of innovative technology and creating a more homogeneous security environment between different firms.

We would consider supporting a wider range of authentication solutions, in particular those based on innovative technologies, so long as the same high level of security is maintained.

Question 45.1 The current SCA regime prescribes an authentication via a combination of at least 2 distinct factors, or elements, to be applied in case of payer initiated transactions (see Art. 97(1)).

Should any changes be made to the current SCA regime?

- Yes
- No
- Don't know / no opinion / not applicable

If you think changes should be made to the current SCA regime, please explain your answer, and if you have specific design or application suggestions for SCA, please include these:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Clarifying strong customer authentication has taken substantial time and effort – which is still ongoing given uncertainty in the market – and significant changes to the regime would imply the same.

As elsewhere, we believe the legislation should facilitate a range of solutions so long as they meet the desirable security objectives. Where strong customer authentication is required, it would be useful to continue to consolidate a common understanding of the rules and factors which can be easily navigated and understood.

Question 45.2 The current regime requires SCA to be applied in case of payer-initiated transactions.

Should the application of SCA be extended to payee-initiated transactions too, for example merchant initiated transactions?

- Yes
- No
- Don't know / no opinion / not applicable

Contactless payments

Contactless payments can be exempted from SCA, depending on the value of the payment and the number of consecutive payments having been performed without SCA.

Question 46. What is your opinion about the applicable value limit to single contactless payments (without SCA)?

If the EUR is not the main currency in your country of residence, please convert the 50 EUR limit into your own currency and use that as a point of reference for your response.

- The 50 EUR limit should remain
- The limit should be lower than 50 EUR
- The limit should be higher than 50 EUR
- PSUs should be able to fix their own limit
- Don't know / no opinion / not applicable

There is also a limit to the cumulative value of contactless payments. These limits differ per country or per PSP.

Question 46.1 What is your opinion about this cumulative EUR-limit for contactless payments (without SCA)?

If the EUR is not the main currency in your country of residence, please convert the 150 EUR limit into your own currency and use that as a point of reference for your response.

- The limit of 150 EUR should remain
- The limit should be lower than 150 EUR
- The limit should be higher than 150 EUR
- Other

- Don't know / no opinion / not applicable

Question 46.2 What is your opinion about this cumulative payments-limit for contactless payments (without SCA)?

If the EUR is not the main currency in your country of residence, please convert the 150 EUR limit into your own currency and use that as a point of reference for your response.

- The limit to consecutive transactions (5 times) should remain
- The limit to transactions should be lower than 5 consecutive transactions
- The limit to transactions should be higher than 5 consecutive transactions
- Other
- Don't know / no opinion / not applicable

Question 47. Overall, do you believe that additional measures are needed to combat/prevent fraud in payments, and to make payment service providers more secure/resilient?

- Yes
- No
- Don't know / no opinion / not applicable

If yes, please explain your answer to question 47 and include drafting proposals for measures:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Reducing fraud should also be balanced with user experience. In many situations fraud is already low. We also expect that fraud will decline as users understand digital payments better and better.

As elsewhere, we believe it is important that firms can invest in adopting innovative technology to combat crime.

ADR procedures for the settlement of disputes and penalties

Article 57(7)b requires that, for framework contracts, Member States ensure that information on ADR procedures is provided to the payment service user.

Question 48. Should this information also be made available for single payment transactions?

-

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 48:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

The Enforcement section in part 2 asked your opinion on the application and enforcement of PSD2 rules by national competent authorities (NCAs).

Question 49. Should the PSD2 be amended with regard to sanctioning powers and penalties?

Please consider the following suggestions and indicate whether you think the suggestion should be implemented or not:

	Yes	No	Don't know - No opinion - Not applicable
PSD2 should be amended to lay down specific investigatory powers (e.g. to make on-site inspections, to request documents) for NCAs to detect breaches of rules	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 should be amended to provide for a minimum set of sanctioning powers (e.g. to impose administrative sanctions and measures, to publish the sanctions adopted) to the NCAs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PSD2 should be amended to provide a minimum list of applicable sanctions (e.g. administrative penalties and fines, periodic penalty payments, order to cease and desist) available to all NCAs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Question 50. Should any other changes be made to the provisions and/or topics dealt with under Title IV?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 50, being specific and if possible, offering textual proposals:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Title V: Delegated acts and regulatory technical standards

According to this title, the European Commission is empowered to adopt specific delegated acts in view of microenterprises and inflation rates (see in detail Article 104). The European Commission is furthermore obliged to produce a leaflet, listing the rights of consumers (see in detail Article 106).

Question 51. In your view, are the PSD2 requirements on delegated acts and regulatory technical standards adequate?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 51, being specific and if possible, offering textual proposals:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 52. Do you see it as appropriate to empower the European Commission in further fields to adopt delegated acts?

- Yes
 - No
 - Don't know / no opinion / not applicable
-

Question 53. Do you see a need for the European Commission to provide further guidance related to the rights of consumers?

- Yes
 - No
 - Don't know / no opinion / not applicable
-

Question 54. Should any other changes be made to the provisions and/or topics dealt with under Title V?

- Yes
- No
- Don't know / no opinion / not applicable

Please explain your answer to question 54, being specific and if possible, offering textual proposals:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Title VI: Final provisions

The final provisions in Title VI include, amongst others, the provision on full harmonisation (see also question 8), the review clause, transitional provisions and amendments to other pieces of EU legislation.

Question 55. In your view, are the final provisions listed in Title VI still adequate?

Please indicate to which extent you (dis)agree with the following statements:

	1 (strongly agree)	2 (somewhat agree)	3 (neutral)	4 (somewhat disagree)	5 (strongly disagree)	Don't know - No opinion - Not applicable
The provisions on full harmonisation (Art. 107) are still adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The transitional provisions (Art. 109) of the PSD2 are adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
The amendments to other Directives and regulation (Art. 110, 111, 112) were adequate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

Please explain the reasoning of your answer to question 55 and provide arguments for your views, including possible suggestions for changes to the provision (if any).

In case you are of the opinion that the amendments to other legislation were not adequate, for example because they omitted something, please specify the inadequacy and why this posed an issue:

5000 character(s) maximum

including spaces and line breaks, i.e. stricter than the MS Word characters counting method.

Question 55.1 In case of a revision of PSD2, would you have suggestions for further items to be reviewed, in line with the review clause (Art. 108) of the PSD2?

- Yes
- No
- Don't know / no opinion / not applicable

Question 55.2 Do you see any other issues to be considered in a possible revision of PSD2 related to the final provisions?

- Yes
- No
- Don't know / no opinion / not applicable

Any other issues

Question 56. Are there any other issues that have not been raised in this questionnaire that you think would be relevant for the review of PSD2 and its possible revision?

- Yes
- No
- Don't know / no opinion / not applicable

Additional information

Should you wish to provide additional information (e.g. a position paper, report) or raise specific points not covered by the questionnaire, you can upload your additional document(s) below. **Please make sure you do not include any personal data in the file you upload if you want to remain anonymous.**

The maximum file size is 1 MB.

You can upload several files.

Only files of the type pdf,txt,doc,docx,odt,rtf are allowed
